

# VEGGIE LOVERS

IZIDORO

## IZIDORO

Izidoro is a **100-year-old company, 100% Portuguese, specialized in plant-based and animal protein.** We have a legacy of working with meat that makes us proud, we are faithful to our origins and tradition, but we are **bold in our ability to innovate and in our desire to exceed consumer expectations.**

We have a **diversified portfolio of fresh, frozen, and processed plant-based products** that answers to consumers' needs in their search for a **healthier, more varied and richer diet** based on diverse sources. We are the **reference in presenting new plant-based solutions in Portugal** and we have been true pioneers with the development of the first Portuguese plant-based sausage in 2011 and the first vegan steak in 2021.

## VEGGIE LOVERS

Izidoro Veggie Lovers was created precisely to respond to the growing demand for a healthier and more varied diet. After a decade of perfecting our vegetarian recipes, we now present an **innovative range entirely dedicated to 100% plant-based solutions**, where all products have **V-Label certification, awarded by the European Vegetarian Union**, which are distinguished by their **familiar and mainstream taste**, for its **origin** - we are a 100% Portuguese brand - and for a more **environmentally friendly ecological footprint**.
